

KW-590490

2 Curve Flanged Hollow Bow Handle

Description:

The Hollow Bow Handle is a durable and ergonomically designed accessory, engineered to provide a firm grip and effortless operation of heavy-duty sliding gates. Manufactured from high-grade metal, this handle ensures strength, reliability, and long-lasting performance even under continuous outdoor use.

FIXING: To be fixed to the gate with screws (not provided)

MATERIAL: Electrogalvanized Steel.

PARTS SUBJECT TO WEAR: Color surface of handle.

FEATURES:

- Crafted from hollow bar providing high strength with reduced weight.
- Available in powder-coated or galvanized finish.
- Can be installed vertically or horizontally, using concealed fixing screws.
- Corrosion-resistant finish

Article No.	Ø (mm)	H (mm)	I (mm)	T (mm)
KW-590490.20A	20	64	180	230
KW-590490.28A	28	80	280	345

Maintenance Frequency		
Low Use <25 Operations/Day	Average Use <50 Operations/Day	High Use >50 Operations/Day
2 Year*	2 Year*	1 Year*
Check screws; Check correct fixing to the gate/door.		
*This scheme refers to a normal workplace (not marine or particularly aggressive environments).		

MAINTENANCE:

Ensure that the screws are securely fastened after assembly. In any case, check the attachment periodically. Mount so that no vibrations or shocks occur.

IMPORTANT: The manufacturer reserves the right to modify the characteristics of the article as required without notice. The manufacturer declines any liability for even partial modifications to the article, and the declared performance values are valid only if the installation procedures are carried out by qualified personnel.
